

MATH

WORKBOOK

LEVEL 1 UNIT 3

DISCOVERING LEARNING

Read to your teacher.

MY GOALS:

- Add to 5, 6, 7, 8, 9, and subtract
- Learn different ways to create a number
- Understand more/greater and fewer/less
- Find the SUM
- Learn the calendar: days, weeks, and months

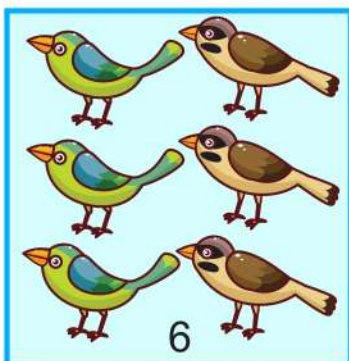

LEARN THE PHRASE

Kindness is a gift. Share it with others.

LEARN

$$\begin{array}{r} 6 \\ + 1 \\ \hline 7 \end{array}$$

It's time to learn something new!

Find **different** ways to make a number.

$1 + 1 + 1 = 3$

$1 + 2 = \square + \square = \square$

$2 + 1 = \square + \square = \square$

3

$1 + 1 + 1 + 1 = 4$

$1 + 3 = \square + \square = \square$

$2 + 2 = \square + \square = \square$

$3 + 1 = \square + \square = \square$

4

Fill in the blanks.

Remember! You get a **greater** number when you **ADD**.
You get a **smaller** number when you **SUBTRACT**.

What sign makes the equation true? **+** or **-**

$$\boxed{?} \frac{2}{1} \frac{1}{3}$$

3 is **greater** than 2, therefore you have to add and use the "+" sign.
 $2 + 1 = 3$

$$\boxed{?} \frac{3}{1} \frac{1}{2}$$

2 is **less** than 3, therefore you have to subtract and use the "-" sign.
 $3 - 1 = 2$

$$\boxed{+} \frac{2}{1} \frac{1}{3}$$

$$\boxed{} \frac{3}{1} \frac{1}{2}$$

$$\boxed{} \frac{1}{2} \frac{1}{3}$$

$$\boxed{} \frac{2}{2} \frac{1}{4}$$

$$\boxed{} \frac{4}{1} \frac{1}{3}$$

$$\boxed{} \frac{4}{3} \frac{1}{1}$$

$$\boxed{} \frac{3}{1} \frac{1}{4}$$

$$\boxed{} \frac{4}{2} \frac{1}{2}$$

$$\boxed{} \frac{1}{3} \frac{1}{4}$$

$$\boxed{} \frac{1}{1} \frac{1}{2}$$

Let's create the number **3**.

$$1 + \boxed{} = 3$$

$$2 + \boxed{} = 3$$

$$1 + \boxed{} + \boxed{} = 3$$

Let's create the number **4**.

$$1 + \boxed{} = 4$$

$$2 + \boxed{} = 4$$

$$3 + \boxed{} = 4$$

$$1 + \boxed{} + 1 + \boxed{} = 4$$

Correct mistakes.

Rescore.

Let's make the numbers 5 and 6.

Find different ways to make a number.

$$\text{Red cube} + \text{Red cube} + \text{Red cube} + \text{Red cube} + \text{Red cube} = 1 + 1 + 1 + 1 + 1 = 5$$

$$\text{Red cube} + \text{Blue cube} + \text{Blue cube} + \text{Blue cube} + \text{Blue cube} = 1 + 4 = 5$$

$$\text{Red cube} + \text{Red cube} + \text{Blue cube} + \text{Blue cube} + \text{Blue cube} = \square + \square = \square$$

$$\text{Red cube} + \text{Red cube} + \text{Red cube} + \text{Blue cube} + \text{Blue cube} = \square + \square = \square$$

$$\text{Red cube} + \text{Red cube} + \text{Red cube} + \text{Red cube} + \text{Blue cube} = \square + \square + \square$$

How many ways can you make the number 6?

$$1 + 1 + 1 + 1 + 1 + 1 = 6$$

$$\square + 1 = 6$$

$$1 + \square = 6$$

$$\square + 2 = 6$$

$$2 + \square = 6$$

$$\square + 3 = 6$$

$$3 + \square = 6$$

$$\square + 4 = 6$$

$$4 + \square = 6$$

$$\square + 5 = 6$$

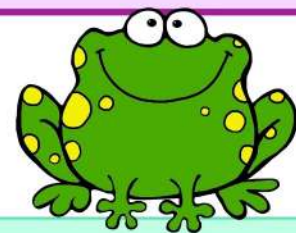

$$5 + \square = 6$$

$$\square + 6 = 6$$

$$6 + \square = 6$$

Fill in the blanks.
